

IBIS INSTRUMENTS

IS CURRENTLY LOOKING FOR A

Big Data Engineer

Who are we?

IBIS INSTRUMENTS is leading regional system integrator founded in 1996, and serves more than 300 customers in South East Europe having offices in Serbia (HQ), Romania, Bulgaria, Macedonia and Bosnia. Our major partners are leading software and measurements companies like IBM, Microsoft, Check Point, Click Software, Keysight (ex HP).

Due to the significant expansion of our activities, we are looking for a talented BIG DATA ENGINEER who will join our team in Belgrade. Our future colleague is tech savvy and likes to be challenged with complex IT problems.

What will you be doing?

- Implementation and development of Big Data solutions and components (Hadoop, HBase, Spark)
- Fine tuning, troubleshooting and maintenance
- Map Reduce and Spark job writing
- Scripting with Shell/Bash/Perl
- Using SQL procedures
- Preparing data for presentation
- Developing collection layer components and integration with data sources

You are:

- Passionate about technology
- Open to receive and apply constructive feedback
- Detail oriented
- Fluent in English
- Self - motivated
- Focused on constant learning

Our offer:

- Opportunity for professional development
- Great financial package
- Flexible working hours
- Coaching and training to help you grow
- Various sports and team building activities

What do you need to have?

- Related University degree (Faculty of Electrical Engineering, FON, Faculty of Mathematics)
- 2 years of experience with data processing
- Active work with SQL and relational databases
- Good knowledge of Python
- Basic knowledge of Linux OS

Experience with following areas is a plus:

- Shell Scripting
- Git
- NoSQL
- Hadoop, Hbase, Cloudera, Spark

Sounds interesting?

If yes, show us what you've got and send your CV to career@ibis-instruments.com by March 23rd 2018 with email subject **BIG DATA ENGINEER.**

Have in mind that only candidates selected for an interview will be contacted.
